

A diagram of a single-stranded RNA molecule. The backbone consists of alternating black circles representing phosphate groups and white circles representing ribose sugars. The bases are represented by letters: G, A, C, U. Some bases are connected to their complementary partners by red lines, indicating base pairs. The sequence from left to right is: 5' end (labeled), U, G, C, G, C, G, A, G, U, U, G, C, A, C, G, G, C, C, U, G, G, C, C, G, G, C, U, A, A, C, G, G, A, 3' end (labeled). Red lines connect U to A, G to C, C to G, A to U, U to A, G to C, C to G, C to G, U to A, G to C, C to G, C to G, U to A, A to U, C to G, G to C, A to U.

[illegible]
